

The Tulse Hill Practice
Patient Participation Group

In order to ensure we provide the best service to our patients and to listen to your views and ideas, we run a patient group meeting 3-4 times a year. The aim of these meetings is to listen to your views on how the surgery can develop and how we can ensure we engage with other local groups.

You do not need any special qualities or qualifications to join the group, neither do you have to commit to coming to every meeting. We can use e-mail or letters to communicate as well as having meetings. All are welcome.

If you are interested in joining us, please leave this completed form with a receptionist and we will be in touch.

We look forward to meeting you.
